| Elizabeth Brunt, MD                | Block 3 | Vascular and Metabolic Liver Diseases
Extrahepatic Biliary Disease and Hepatobiliary Neoplasia |
| Danielle Carpenter, MD             | Block 2 | Diseases of Blood Vessels
Atherosclerosis                              |
| Rebecca Chernock, MD               | Block 1 | Pathology of the Thyroid                                                                             |
|                                   | Block 3 | Pathology of the Upper Digestive Tract                                                                 |
| Erika Crouch, MD, PhD              | Block 1 | General Path Section Leader and Lecturer:
Introduction to Pathology Course
Surgical Pathology and Approach to Pathologic Diagnosis
Cellular Response to Injury and Cell Death
Vascular Injury and Thrombosis
Neoplasia I: Abnormal Growth, Neoplasia & Epidemiology of Cancer
Neoplasia II: Carcinogenesis and Mechanism of Unbalanced Growth
Neoplasia III: Invasion, Metastasis, and Clinical Presentations
Neoplasia IV: Cancer Diagnosis, Grading and Staging
Colon Cancer - A Paradigm of Surgical Pathology
Breast Pathology and Mammary Neoplasia - A Paradigm of Surgical Pathology |
|                                   | Block 2 | Pulmonary Path Section Leader and Lecturer:
Approach to Pulmonary Disease
Response to Injury & Fibrosing Lung Disorders
Pathology of Chronic Airflow Limitation
Response of the Lung to Inorganic Dists
Response of the Lung to Microorganisms
Immunologic Lung Disease
Pulmonary Hypertension
Pulmonary Neoplasia
Pulmonary Large Group Interactive |
|                                   | Block 2 | Cardiac Path Section Leader and Lecturer:
Response of the Heart and Vessels to Injury |
|                                   | Block 2 | Renal Path Section Leader and Lecturer:
Approach to Renal Disease and Mechanisms of Renal Injury
Glomerular Pathology I & II |
|                                   | Block 2 | Endocrine Path Section Leader and Lecturer: |
|                                   | Block 3 | GI Pathology Section Leader and Lecturer:
Pathology of the Small Intestine
Approach to Liver Disease |
|                                   | Block 3 | Pathology of Diabetes and Its Vascular Complications |
|                                   | Block 3 | Skin and Soft Tissue and Bone Pathology Section Leader and Lecturer:
Soft Tissue Tumors
Bone Tumors |
| Charles Eby, MD                   | Block 1 | Introduction to Laboratory Medicine                                                                 |
|                                   | Block 6 | Hemostasis Testing                                                                                   |
| John Frater, MD                   | Block 6 | Hematopathology Section Leader and Lecturer:
Bone Marrow Structure, Function and Diseases |
| Joseph Gaut, MD, PhD              | Block 2 | Pathology of Renal Vascular Diseases
Pathology of Tubulointerstitial Diseases
Glomerular Disease Case Studies |
| Ann Gronowski, PhD                | Block 3 | Clinical Immunoassays                                                                               |
| Brenda Grossman, MD               | Block 6 | Transfusion Medicine I: Blood Bank Testing and Component Therapy
Transfusion Medicine II: Transfusion Reactions |
| Ian Hagemann, MD, PhD             | Block 6 | OB-GYN Path Section Leader and Lecturer:
Diseases of the Endometrium and Myometrium
Diseases of the Cervix, Vulva, and Vagina
Cervical Cytopathology with Clinical Correlations
Perinatal Pathology
Placental Pathology
Non-Neoplastic Disorders of the Ovary and Fallopian Tube
Ovarian Tumors |
| Sanjay Jain, MD, PhD              | Block 3 | Pathology of Renal Development and Cystic Kidney Disease
Renal Case Studies |
<p>| Chang Liu, MD, PhD                | Block 2 | HLA Typing &amp; Transplantation                                                                         |</p>

| Jason Mills, MD, PhD          | Block 3 | Pathology of the Esophagus  
Pathology of the Stomach |
| ILKe Nalbantoglu, MD          | Block 3 | Inflammatory and Cholestatic Liver Diseases |
| Deborah Novack, MD, PhD       | Block 2 | Ischemic Heart Disease  
Myocarditis, Pericarditis, and Cardiomyopathies  
Rheumatic and Valvular Heart Disease  
Cardiac Case Studies |
| Jacqueline Payton, MD, PhD    | Block 5 | Genomics in Laboratory Medicine - Gene Guided Management of Patient |
| John Pfeifer, MD, PhD         | Block 1 | Inflammation and Tissue Response to Injury I-IV |
| Ilana Rosman, MD              | Block 3 | Approach to Dermpath  
Inflammatory Skin Disorders |
| Marianna Ruzinova, MD, PhD    | Block 6 | Plasma Cell Dyscrasias, Hodgkin Lymphoma, and T-Cell Lymphomas |
| Andras Schaffer, MD, PhD      | Block 3 | Infections, Infestations and Benign Lesions of the Skin  
Skin Cancer and Melanocytic Neoplasms |
| Mitchell Scott, PhD           | Block 1 | Lab Medicine Section Leader and Lecturer:  
Introduction to Laboratory Medicine  
Laboratory Medicine 101  
Statistical Concepts of Normality  
Biochemical Markers for the Diagnosis of Myocardial Infarction and Cardiovascular Diseases |
|                               | Block 2 | Pathology of the Prostate - A Paradigm of Surgical Pathology  
Pathology of Renal Neoplasms  
Pathology of the Urinary Bladder  
Testicular Pathology |
| Jennifer Sehn, MD             | Block 3 | Pathology of the Large Intestine  
Pathology of the Pancreas |
| Thaddeus Stappenbeck, MD, PhD | Block 3 | Pathology of the Large Intestine  
Pathology of the Pancreas |
| Steven Teitelbaum, MD         | Block 3 | Pathology of Metabolic Bone Diseases |
