Symposium to honor: HERBERT “SKIP” VIRGIN, IV MD, PhD
“Viral Pathogenesis: Present and Future”
Friday, September 14, 2018
Washington University School of Medicine
Eric P. Newman Education Center – Main Auditorium

8:45 am  WELCOME
Paul M. Allen, PhD
Robert L. Kroc Professor, Pathology and Immunology

8:50 am  REMARKS
Holden Thorp, PhD
Provost
Rita Levi-Montalcini Distinguished University Professor

David H. Perlmutter, MD
George and Carol Bauer Dean, School of Medicine
Spencer T. and Ann W. Olin Distinguished Professor
Executive Vice Chancellor for Medical Affairs

MORNING SESSION
Session Chair: Thad Stappenbeck, MD, PhD
Conan Professor, Pathology and Immunology

9:00 am  Beth Levine, MD
Charles Sprague Distinguished Chair in Biomedical Science
Professor, Departments of Internal Medicine and Microbiology
Director, Center for Autophagy Research
Investigator, Howard Hughes Medical Institute
University of Texas Southwestern Medical Center
“From Viral Pathogenesis to Autophagy: The Story of Beclin 1 and Bcl-2”

9:40 am  Mark Heise, PhD
Professor, Department of Genetics
University of North Carolina
“Using System Genetics to Study Viral Pathogenesis and Host Immunity”

10:20 am  BREAK

10:50 am  Mike Oldstone, MD
Professor, Department of Immunology and Microbiology
Head Laboratory of Viral-Immunobiology
Scripps Research Institute
“Concepts in Virology and Immunology Taught by LCMV”

11:30 am  Tiffany Reese, PhD
Assistant Professor, Department of Immunology
University of Texas Southwestern Medical Center

8:50 am  REMARKS
Holden Thorp, PhD
Provost
Rita Levi-Montalcini Distinguished University Professor

David H. Perlmutter, MD
George and Carol Bauer Dean, School of Medicine
Spencer T. and Ann W. Olin Distinguished Professor
Executive Vice Chancellor for Medical Affairs

MORNING SESSION
Session Chair: Thad Stappenbeck, MD, PhD
Conan Professor, Pathology and Immunology

9:00 am  Beth Levine, MD
Charles Sprague Distinguished Chair in Biomedical Science
Professor, Departments of Internal Medicine and Microbiology
Director, Center for Autophagy Research
Investigator, Howard Hughes Medical Institute
University of Texas Southwestern Medical Center
“From Viral Pathogenesis to Autophagy: The Story of Beclin 1 and Bcl-2”

9:40 am  Mark Heise, PhD
Professor, Department of Genetics
University of North Carolina
“Using System Genetics to Study Viral Pathogenesis and Host Immunity”

10:20 am  BREAK

10:50 am  Mike Oldstone, MD
Professor, Department of Immunology and Microbiology
Head Laboratory of Viral-Immunobiology
Scripps Research Institute
“Concepts in Virology and Immunology Taught by LCMV”

11:30 am  Tiffany Reese, PhD
Assistant Professor, Department of Immunology
University of Texas Southwestern Medical Center

12:10 pm  BREAK BETWEEN SESSIONS

AFTERNOON SESSION
Session Chair: Ken Murphy, MD, PhD
Eugene Opie First Centennial Professor, Pathology and Immunology

1:00 pm  Ramnik Xavier, MD
Kurt Isselbacher Professor of Medicine
Harvard Medical School
Core Faculty, Broad Institute
“Genes, Bugs, and Gut Immunity”

1:40 pm  Ken Cadwell, PhD
Associate Professor
Skirball Institute of Biomolecular Medicine
Department of Microbiology
New York University School of Medicine
“Host-Virus Interactions and the Microbiota”

2:20 pm  BREAK

2:50 pm  Kim Y. Green, PhD
Chief, Caliciviruses Section,
Laboratory of Infectious Diseases, NIAID
National Institutes of Health
“Murine Norovirus: The Mouse Virus that Roared”

3:30 pm  Megan Baldridge, MD, PhD
Assistant Professor of Medicine
Washington University School of Medicine
“Regulation of Norovirus Infection by the Commensal Microbiota”

4:10 pm  Rafi Ahmed, PhD
Georgia Research Alliance Scholar,
Director, Emory Vaccine Center
Emory University School of Medicine
“T Cell Adaption to Chronic Viral Infection”

4:50 pm  CLOSING REMARKS
Herbert W. Virgin IV, MD, PhD
